## Brief introduction of Eurasia Reiyukai

Eurasia Reiyukai is the social organization striving for the creation of world peace through the development of as many people as possible who can contribute for the society. The Reiyukai has three main pillars to practice: the first one is ancestral remembrance, second is purification of karma and the third is practice of repentance. Gratitude is the basis of the Reiyukai teachings. It is fact that we all have our ancestors. With our ancestors we have our blood and karmic relation. That is why we receive the opportunity to enshrine the holy symbol of both side families' ancestors in our house which provides us the opportunity to save the karmic relation inherited from both sides' families' ancestors by ourselves. Eurasia Reiyukai never discriminate any religion, caste, sect and politics. Anyone can take the membership of this organization. There are several organization who recites sadarmapundarika sutra and do odaimoku practice but the members of the Eurasia Reiyukai availed the opportunity to implement themselves and make others also implement the same, the teachings of the bussogonen, the significant treasure which is hidden in Suddharmapundarika Sutra. In course of practicing the teachings we can avail the opportunity to save the soul of our ancestors by awakening their bodhi soul, who have been dwelling in the nadir hell (Abichi Nark). Through michibiki practice we also avail the opportunity to awaken bodhi soul to each and every person and groom them as many benevolent person as possible who can work towards the society. The pragmatic practices of the Reiyukai Teachings starts from greeting with Namaskar, thankfulness and forgiveness and having implemented the gratitude, the basis of the Reiyukai teachings we should avail the opportunity to step up ourselves through the feelings of forgiveness.
